

Project Handover Report

This document includes everything and everything you need to know to continue developing the codebase. Basically, it shows an overview about the technologies used to develop the product, the architecture of the product (a single page application including a frontend, a backend and a database), how to run the code and how to test it and the user stories we completed.

- [Technologies & Tools](#) (or find it in https://github.com/ndhngoc91/COMP90082_S1_TO_2021/tree/master/documents)
- Architecture Diagrams (or find them in https://github.com/ndhngoc91/COMP90082_S1_TO_2021/tree/master/diagrams)
 - [Microservices Architecture](#)
 - [Frontend Architecture](#)
 - [Backend Architecture](#)
 - [Database Diagram](#)
- Deployment (or find them in https://github.com/ndhngoc91/COMP90082_S1_TO_2021/tree/master/deployment)
 - [Local Deployment Guide](#)
 - [Deploying the application to AWS](#)
 - [CI/CD Process](#)
- [User Stories](#)
